**Innovative Natural Resource Solutions Hires Erin Quigley as Associate**

KEENE, New Hampshire – June 12, 2008 – Innovative Natural Resource Solutions LLC (INRS) announced today that Erin Quigley has joined the firm as Associate. Ms. Quigley will assist company principals in a wide variety of natural resource management projects, including those related to forest policy, renewable energy, environmental auditing, land conservation, forestry and wildlife management.

Charles A. Levesque, INRS President, said, “We are very excited to have Erin Quigley join our firm. She brings a wealth of knowledge and energy that will benefit our clients and the greater good we try to impart on all of our projects.”

Before joining INRS, Ms. Quigley received a Masters degree in Natural Resources at the University of Vermont in Burlington. Her thesis research involved the creation of a land-use-based carbon budget for Chittenden County, VT. While at UVM she also worked as a research assistant in the Carbon Dynamics Lab, as a teaching assistant for NR 001, Natural History and Field Ecology, and as a research technician for Carbon Dynamics LLC, where she assisted the Center for Climate Strategies and the State of Iowa in creating forestry-related climate policy recommendations.

Prior to graduate school, Ms. Quigley worked as a field technician for the USDA Forest Service Northeastern Research Station in Durham, New Hampshire, where she studied the effects of hemlock wooly adelgid on northern forests.

In addition to her recent MS, Ms. Quigley holds a Bachelor’s degree in sociology and anthropology, with a concentration in archaeology, from Carleton College in Northfield, Minnesota. She currently resides in Harrisville, NH where she enjoys hiking, canoeing on Harrisville Pond and working at a nearby farm.

Founded in 1994, Innovative Natural Resource Solutions LLC has offices in Maine and New Hampshire and specializes in assisting business, non-profit and government clients in resolving today’s complex natural resource management and business challenges. INRS clients are found throughout North America and abroad.
